

HOUSTON USA OIL TECHNOLOGIES

**Energy Logistics and Transaction Management
Solutions**

Who we are?

Performing Petroleum Products Supplier

With our ongoing reputation and integrity, we are pleased to have secured direct representation of petroleum products suppliers, buyers and official mandates, offering a secure and transparent position for the acquisition of various petroleum products.

With our partners, we are enabled to promptly and professionally offer real access to petroleum products through our verified and performing suppliers and provide accurate information on pricing, terms and availability. This not only provides confidence for the petroleum buyer by removing large chains of brokers or intermediaries, it also provides a single point of contact with the advantage to negotiate directly through us with the engagement of the petroleum products end buyers and suppliers directly to secure and finalize the transaction in an expedited time-frame.

In Houston Usa Oil Technologies are seasoned veterans in the petroleum markets with extensive experience in logistics. To be successful fuel traders in the petroleum products market, it is required to possess an in depth knowledge of the transport and tank storage requirements.
