

## Corporate Overview

Houston USA Oil Technologies, LLC (HUOT) is a Houston-based energy and industrial solutions company providing procurement, supply chain management, logistics coordination, and energy commodity trading services for domestic and international clients. Headquartered at 1350 NASA Parkway in Houston, Texas, HUOT supports energy infrastructure projects, refinery operations, drilling programs, industrial facilities, and government entities through strategic sourcing, vendor qualification, and compliant commercial execution.

**Mission:** To provide reliable energy, procurement, and industrial support solutions through integrity, compliance, and operational excellence.

**Vision:** To become a trusted global partner for energy trading, industrial procurement, and supply chain solutions across the Americas, Europe, Africa, and the Middle East.

## Core Services

### Energy Commodities

Trading and supply of refined and unrefined energy products for refineries, distributors, and government buyers under strict compliance standards.

### Supply Chain Management

Vendor qualification, strategic sourcing, inventory management, global procurement, contract administration, and project procurement.

### Industrial Procurement

Sourcing of oilfield equipment, drilling materials, valves and actuators, pumps and compressors, electrical equipment, instrumentation, safety equipment, and critical spare parts.

### Maritime & Logistics Support

Vessel coordination, marine procurement, cargo logistics, international shipping, port support services, and offshore supply chain management.

## Product Portfolio

EN590 10ppm Diesel	Jet A-1 Fuel	LPG	LNG
Crude Oil	Fuel Oil	Petrochemicals	Refined Petroleum Products

## Compliance Program

Compliance is the first step of every HUOT transaction. Counterparty verification and screening are completed before commercial terms are discussed.

- ◆ KYC Verification
- ◆ Anti-Corruption / Anti-Bribery Policies (FCPA)
- ◆ Vendor Due Diligence & Qualification
- ◆ HSE Commitment
- ◆ AML Procedures
- ◆ OFAC & Sanctions Screening
- ◆ Trade Compliance Reviews
- ◆ Quality Assurance (SGS or equivalent inspection)
